

Midi Basic

District heating substation for multi-family houses (10-30 dwellings)

Midi Basic is a complete, ready-to-install district heating substation for heating and hot water. Midi Basic is available in three sizes. The sizes offered are 70, 100 and 135 kW heating, with matching hot water output.

Alfa Laval has many years of experience in district heating technology, which is put to expert use in the Midi Basic, resulting in well-planned pipe-work and with all components easily accessible for inspection and future servicing.

Comfort

Midi Basic has fully automatic temperature control for heating and hot water. The outside temperature is used to control heating. The hot water temperature is set and maintained at the desired temperature.

Simple installation

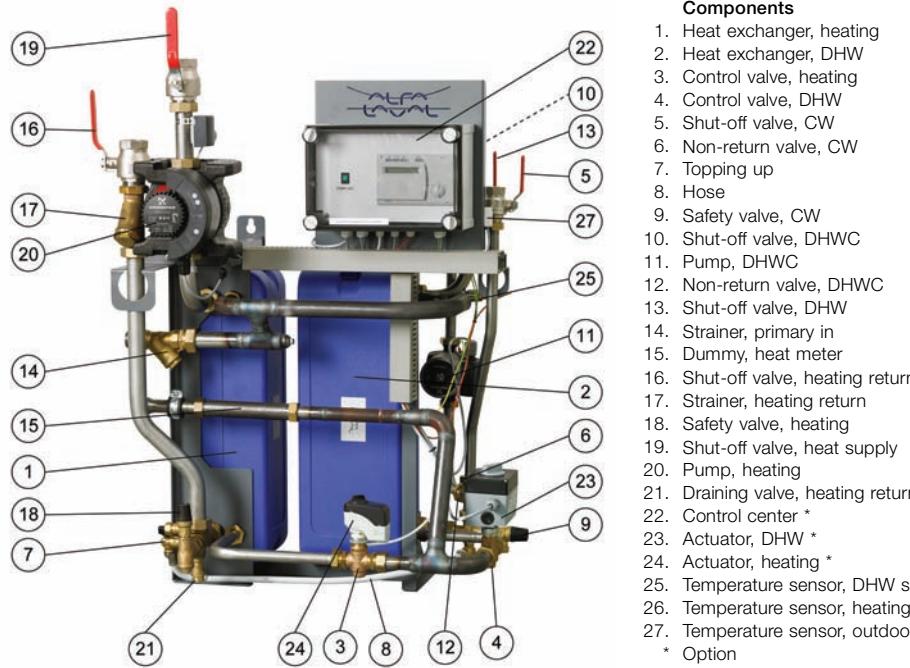

Compact dimensions, light weight, well-planned pipe runs and factory-installed interior electrical routing all make installation very simple. The pre-programmed control device and plug connection make life even simpler in that the system can be activated immediately.

Long-term security

The Midi Basic represents the most modern technology, and provides the answer to stringent demands for long-term performance. The heat exchanger plates and all piping are manufactured in acid-resistant stainless steel. All components are closely matched and carefully tested for function in accordance with Alfa Laval's quality assurance system ISO 9001:2008.

Midi Basic is CE-marked to certify that the substation conforms to international safety regulations. To maintain the validity of the CE marking, only identical replacement parts may be used.

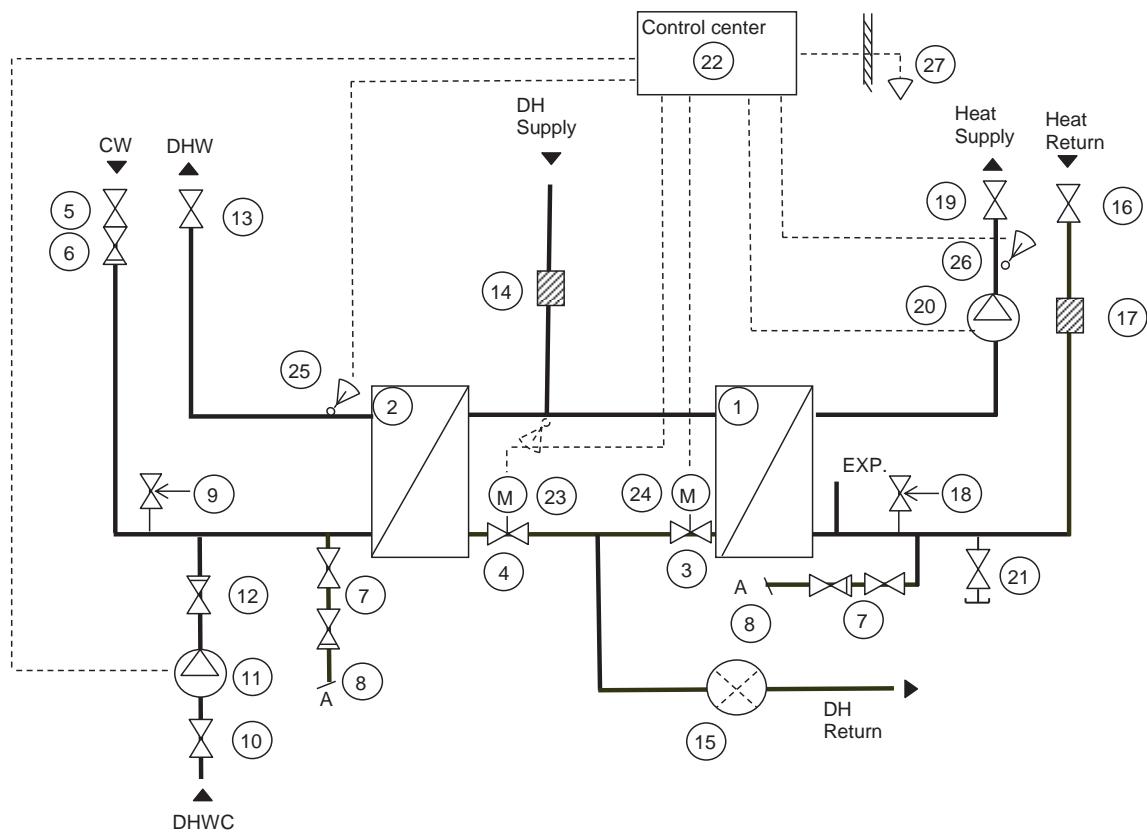

Components

1. Heat exchanger, heating
 2. Heat exchanger, DHW
 3. Control valve, heating
 4. Control valve, DHW
 5. Shut-off valve, CW
 6. Non-return valve, CW
 7. Topping up
 8. Hose
 9. Safety valve, CW
 10. Shut-off valve, DHWC
 11. Pump, DHWC
 12. Non-return valve, DHWC
 13. Shut-off valve, DHW
 14. Strainer, primary in
 15. Dummy, heat meter
 16. Shut-off valve, heating return
 17. Strainer, heating return
 18. Safety valve, heating
 19. Shut-off valve, heat supply
 20. Pump, heating
 21. Draining valve, heating return
 22. Control center *
 23. Actuator, DHW *
 24. Actuator, heating *
 25. Temperature sensor, DHW supply *
 26. Temperature sensor, heating supply *
 27. Temperature sensor, outdoor *
- * Option

Connections for district heating are welded connections in DN25, for tap water side internal threaded connections in G 1" and for heating side internal threaded connections in G 1½".

Other information

Electrical data: 230 V 50 Hz, single phase, 290-315 W
Sound level: <70 dB(A), 1.6 meters above the floor and 1 meter from the sound source
Dimensions: 800 x 570 x 1100 mm (W x D x H)
Weight: 65-85 kg

Support legs are included in all deliveries

Options

3-point HB measurement

Underfloor heating thermostat
